

Violent Crime and Drugs 2023

Connecticut

This theme describes violent crimes and drug related crimes for the selected jurisdiction.

Data Availability The data and charts in this theme are based on data from agencies who submit individual incident details as per the National Incident-Based Reporting System (NIBRS). Prior to 2021, not all agencies were submitting NIBRS, so counts in these years are lower. For this reason, year-over-year comparisons using years before 2021 should be treated with caution. Additionally, only those incidents with latitude/longitude are reflected on the map when viewing tract-based measures.

Any updates to data received prior to today are included in the charts.
