

# Violent Crime and Drugs 2024 Connecticut

This theme describes violent crimes and drug related crimes for the selected jurisdiction.

**Data Availability** The data and charts in this theme are based on data from agencies who submit individual incident details as per the National Incident-Based Reporting System (NIBRS). Prior to 2021, not all agencies were submitting NIBRS, so counts in these years are lower. For this reason, year-over-year comparisons using years before 2021 should be treated with caution. Additionally, only those incidents with latitude/longitude are reflected on the map when viewing tract-based measures.

Any updates to data received prior to today are included in the charts.
